## MINUTES

Of the Regular Meeting on January 3, 2022 of the

### OKLAHOMA WILDLIFE CONSERVATION COMMISSION

Held at the Enid Board of Education Administrative Services Center, Enid, Oklahoma. Commission meeting dates are filed with the Secretary of State, Office of Administrative Rules before December 15, annually. The Agenda is listed on the Department's website and was posted at the entrance of the Wildlife Department Building on December 20, 2021 at 2:30 p.m. and was posted on December 17, 2021 on the door of the Enid Board of Education Administrative Services Center. A notice was also published in the Enid News & Eagle Legal Section on 12/22/21, 12/26/21, 12/29/21 and 1/2/22.

Chairwoman Leigh Gaddis called the Commission in session at 9:00 a.m.

Rhonda Hurst, Executive Assistant, called the roll.

MEMBERS PRESENT:      LEIGH A. GADDIS, Chairman  
                                 JAMES V. BARWICK, Vice-Chairman  
                                 C. RICK HOLDER, Secretary  
                                 BRUCE R. MABREY, Member  
                                 D. CHAD DILLINGHAM, Member  
                                 JESS M. KANE, Member

MEMBERS ABSENT:      BILL K. BREWSTER, Member  
                                 JOHN P. ZELBST, Member

J.D. Strong, Director, introduced the following guests: Jordan Menge, Quail Forever, Hennessey, Oklahoma.

Director Strong recognized Mike Plunkett, Wildlife Regional Supervisor, for 40 years of service.

Motion was made by Mr. Dillingham, seconded by Mr. Holder to approve the minutes from the November 1, 2021 regular Commission meeting. Motion carried with Commissioners Barwick, Mabrey, Holder, Dillingham, Kane and Gaddis voting "Yes".

Director Strong gave a brief update and highlighted the Congressional report submitted by Brittnee Preston, the Department's part-time Federal and Congressional Liaison. This report was sent to all Commissioners and will be kept with the minutes of this meeting. He gave a Director's Report on calendar items and agency updates. This report was given to the Commission and will be kept with the minutes of this meeting. Director Strong added that the Department closed in December 2021 on an additional 6200 acres to join the Sandy Sanders Wildlife Management Area. Bill Dinkines, Chief of Wildlife Division, announced that the current deer harvest is 115,032 and that 41% was antlerless harvest.

Corey Jager, Legislative Liaison, requested Commission approval of a written Position Statement pertaining to license related legislation. She stated that we have a bill, authored by Senator Roger Thompson and Representative Kevin Wallace, which would take the license requirements out of statute and put them in administrative rules. This would allow the Commission to create licenses and set fees. Director Strong said the written position statement approved by the Commissioners would allow us to show unanimous support amongst the Commission and could be used as a handout to legislators to show support from the Commission.

Commissioner Barwick suggested that meetings between legislators and Commissioners should be considered to help explain the need for the bill. Commissioner Kane asked if we still had support from former bill authors for the previous two unsuccessful years we ran this bill. Director Strong replied that they are not 100% supportive, but thought it had more to do with the authors not being passionate enough to carry the legislation, which requires a lot of work. Commissioner Kane also asked what our answer would be to critics of the license bill. Director Strong referred to the language in the position statement, particularly item 1 (emphasis in bold):

1. *Legislation that allows the Commission to use the administrative rules process, **including its robust public participation and legislative oversight opportunity**, to develop a hunting and fishing license structure and associated fees that is more responsive to customer needs, current economic markets, inflation, and conservation needs.*
2. *Legislation that allows ODWC and the Commission to routinely review its regulations regarding licenses, permits and tags to ensure they are streamlined, simple to understand and that they remove barriers to hunter and angler participation.*
3. *Legislation that ensure all fees, monies, or funds arising from the operation and transactions of the Commission shall be expended and used by the Commission for the control, management, restoration, conservation and regulation of fish and wildlife.*

Commissioner Barwick suggested a change to the language in bullet point #3 of the Position Statement to- Legislation that “confirms the Commission’s Constitutional duties and helps” ensure all fees, monies, or funds arising from the operation and transactions of the Commission shall be expended and used by the Commission for the control, management, restoration, conservation and regulation of fish and wildlife.

Commissioner Holder stated that it has been 19 years since the Department has had a fee increase. If the Commission had the ability to raise fees incrementally over the years instead of waiting 19 years and initiating a huge increase, this would probably be more palatable to the constituents. He also stated that the Department has no incentive to sell fewer licenses so we would never raise the price so high we would lose our license holders. Ms. Jager also confirmed that the license package we have submitted was researched and developed by Southwick Associates, a market research and economics firm, specializing in the hunting, shooting, sportfishing, and outdoor recreation market.

Motion was made by Mr. Dillingham, seconded by Mr. Barwick to approve the Position Statement with the amendments requested by Mr. Barwick. Motion carried with Commissioners Barwick, Mabrey, Holder, Dillingham, Kane and Gaddis voting “Yes”.

Commissioner Barwick, although supportive of this Position Statement, cautioned about using this method too often. He said Position Statements should be reserved for critically important issues so that they carry more weight with the Legislature.

Amanda Storck, CFO and Chief of Administration, prior to presenting the financials, gave a brief update on the current license sales:

-Recreational Licenses – Number of licenses sold were down less than 1% from December 2020, down 5% for the year.

-Residential Fishing – Up 5% for the month, Down 21% YTD

Motion was made by Mr. Holder, seconded by Mr. Kane to approve the financial statements as presented and approve miscellaneous contributions. Motion carried with Commissioners Barwick, Mabrey, Holder, Dillingham, Kane and Gaddis voting “Yes”.

Chairwoman Gaddis announce the February 7, 2022 Commission meeting will be at 9:00 a.m. in Oklahoma City, Oklahoma.

A quorum may or may not be present. No official business will be conducted and no action will be taken following adjournment of this meeting.

The meeting adjourned at 11:10 a.m.

## MEMORANDUM

**DATE:** January 25, 2022

**TO:** OK Department of Wildlife Commission and Staff

**FROM:** Brittnee Preston

**RE:** Report on January Federal and Congressional Issues for February Commission Meeting

### State of Play:

Where things stand heading into 2022:

- A \$2.5 trillion debt-ceiling increase was passed and set the next debt-ceiling deadline for early 2023.
- The FY 22 appropriations was extended until February 18th, which pushes the FY 22 budget negotiations into the beginning stages of the FY 23 budget process. There have been discussions of pushing the FY 22 deadline even further down the line into May and possibly even passing a full extension through the end of FY22 (September 30, 2022) and moving on to the FY 23 process.
- Speaker Pelosi has invited President Biden to deliver the State of the Union speech on March 1.

### President –

- > The President's Build Back Better plan is still in limbo. Just before Christmas, Congress and the President conceded that the package wouldn't move until after the new year. As the year began, talks started back up but negotiations haven't made much headway.
- > The White House has also not commented on the timing of the president's fiscal 2023 budget proposal, which is technically due the first Monday of February.

### Recovering America's Wildlife –

- > The House version of the bill has 138 co-sponsors and the Senate version of the bill has 32 co-sponsors.
- > The Senate EPW Committee held a hearing on the bill on December 8<sup>th</sup> and are considering a markup in the near future. Members on both sides of the aisle do have some concerns with the pay for in the bill and there are a few policy concerns that were raised in the hearing that members would like to see addressed before passing the bill out of committee.
- > The House Natural Resources Committee passed the bill out of committee on January 19<sup>th</sup>. Several concerns on the pay for, or lack there of, were expressed in the committee markup and members agreed to work on this ahead of putting the bill on the floor. More details on this hearing are below.

### Congress:

General Congressional actions:

- > GOVERNMENT FUNDING:
  - Congress passed a government funding extension through February 18, 2022, avoiding a government shutdown.
  - This will cause government funding for FY22 to run into the FY23 preparation process early next year.
  - It is possible that Congress will pass another extension for FY22, which would just continue the current level of funding through the end of the fiscal year or potentially even beyond the midterm elections.
  - House appropriators are concerned about the impact of continuing resolutions on the Department of Defense. Lawmakers have relied on two stopgaps to avoid shutdowns this year to fund the

government from Oct. 1 through Feb. 18. Republicans have warned that they'd be fine with a full-year stopgap to extend the last budget approved by former President Donald Trump, though Democrats have warned that would equate to a \$37 billion cut to defense spending, which is also a key priority for the GOP.

- Another round of COVID-19 relief funding may be on the way. There are discussions around tacking on another round of stimulus funding to the FY22 12-bill omnibus, several minibuses, or an extension, which ever actually prevails for funding the government's FY22.

> DEBT CEILING:

- A debt ceiling agreement was reached in early December. Congress passed, a one-time filibuster exemption allowing the Democrats to raise the debt ceiling without requiring the Republican's to vote to raise the ceiling. The agreement teed up a bill to move a one-time, filibuster proof, debt-hike vote. The House and Senate passed a \$2.5 trillion debt increase along party lines just before the Treasury and CBO's estimated deadline of December 15<sup>th</sup>. The new debt ceiling deadline is now set for early 2023.

House –

- > The House Natural Resources Committee held a markup on several bills including H.R. 2773, the Recovering America's Wildlife Act. The bill passed on a bipartisan vote of 29-15. The markup discussion was mostly positive towards the intent of the bill. Many members did have an issue with the lack of a pay for on the bill and expressed concerns with permanent funding requirements in the bill. Rep. Dingell, the bill's sponsor, agreed to work with the members of the committee to address the pay for issue ahead of the bill moving to the floor.

Senate –

- > The Senate Energy and Natural Resources Committee held a hearing on hydropower earlier this week. Sen. Lankford sits on this committee but focused his comments more on the hydropower permitting problems instead of discussing the natural resources concerns surrounding hydropower.
- > The Senate Environment and Public Works Committee voted to nominate Martha Williams to lead the U.S. Fish and Wildlife Service and advance her nomination to the floor. Sen. Inhofe voted in favor of her nomination. The Committee then shifted into a hearing on the implementation of the 2020 WRDA reauthorization bill. Sen. Inhofe mentioned that recreation is a very important opportunity on our reservoirs and that it is an area we need to focus on for everyone's benefit. He said the Corps needs to recognize that priorities have changed, and the original intent and authorization of resources may need to be adjusted.

**Agencies:**

- > U.S. Fish and Wildlife Services (USFWS)
  - USFWS [announced](#) they “are renumbering, renaming, and rearranging certain subparts and sections in regulations. These changes will provide users a more organized road map of the Service's migratory bird and eagle permit processes and improve readability of the regulations. These changes necessitate updating cross-references to the affected section numbers in other parts of regulations.”
  - The USFWS [announced](#) the FY 2022 Cooperative Endangered Species Conservation Fund (CESCF) Traditional Conservation Grants Program for Service Legacy Region 2. The closing date for applications is April 7, 2022.
  - The USFWS [announced](#) the reopening of the comment period on their proposal to remove the Ivory-billed woodpecker from the Endangered and Threatened Species list due to extinction.
  - USFWS [announced](#) “the availability of an application to amend the Oklahoma Department of Wildlife Conservation's enhancement of survival permit and the associated *Agricultural Candidate*

*Conservation Agreement with Assurances (CCAA) for Lesser Prairie Chickens (LEPC) in Oklahoma.”*

- > Environmental Protection Agency (EPA)
  - A new WOTUS rule is coming and will potentially roll back the rule to the 1986 version. Additionally, the Supreme Court announced they will take up a case on WOTUS this year as well. The case would consider limiting the scope of the law.

**Coming up...**

- > Build Back Better reconciliation package is still in negotiation.
- > FY 22 government funding set to expire February 18<sup>th</sup>.
- > FY 23 appropriations will be delayed until later this spring or summer.
- > 2022 WRDA discussions have begun.
- > The Farm Bill expires in 2023 and preliminary discussions on the next bill have begun.
- > Debt Ceiling was extended until 2023.

The Oklahoma Department of Wildlife Conservation is the state agency responsible for managing fish and wildlife. The Wildlife Department receives no general tax appropriations and is supported by hunting and fishing license fees and federal excise taxes on hunting and fishing equipment.

## **2022 Rule Change Proposals Agenda**

### **Title 800 Chapter 10**

1. 800:10-1-4. Size and bag limits on fish
  - Remove the statewide minimum length limit (14 inches) on largemouth bass and smallmouth bass, replacing it with a one over maximum length limit (16 inches), to better manage for quality black bass fisheries.
  - Allow for a black bass tournament exemption to size and bag limits until weigh-in and then the fish must be released.
  - Revise lower Mountain Fork River trout bag limit to include only one brown trout (which must be thirty (30) inches or greater) and re-establish trophy area in the downstream reach of the trout area.
  - Restore the statewide daily bag limit for largemouth and smallmouth bass to Lake Murray and waters in the Wichita Mountains Wildlife Refuge while correcting the proper name of the refuge (contingent on approval of the black bass changes above).
  - Limit the daily bag limit of forked tail catfish to six (6) below Carlton Lake to the Robbers Cave State Park boundary.
  
2. 800:10-1-7. Possession limit
  - Housekeeping measures including the correction of the reference for size and bag limits, corrects the name of the Oklahoma Fishing and Hunting Regulations, and deletes a redundant definition for “in the field”.
  - Adds a statute reference for shad transportation while adding flexibility in how the Department can update and convey the list of restricted waters infected with Bighead and Silver carps.
  - Allow for fish remains to be used as bait on more circumstances and on more waters.
  - Require anglers using containers to store live fish, unattended, in the field to label the containers with their customer id number.
  
3. 800:10-5-3. Designated trout areas
