

# Look for the Signs

Every good hunter scouts, or observes, the area they are going to hunt. This helps them be more prepared on the day of their hunt. Fill in the blanks with the terms below.

Today I went scouting for deer.

There was a lot of good sign in the area so I knew there were deer. I knew there needed to be good

\_\_\_\_\_ like acorns and wheat for deer to eat. There was a pond with a lot of deer \_\_\_\_\_ so I knew deer walked to this pond to drink.

I spotted a trail and saw more deer tracks. I noticed the tree's bark had been rubbed off. That told me there must be bucks in the area because they \_\_\_\_\_ their antlers

on tree trunks to help shed their velvet. I know this will be a good spot to bag a deer.

**Terms: food sources, rub, tracks**

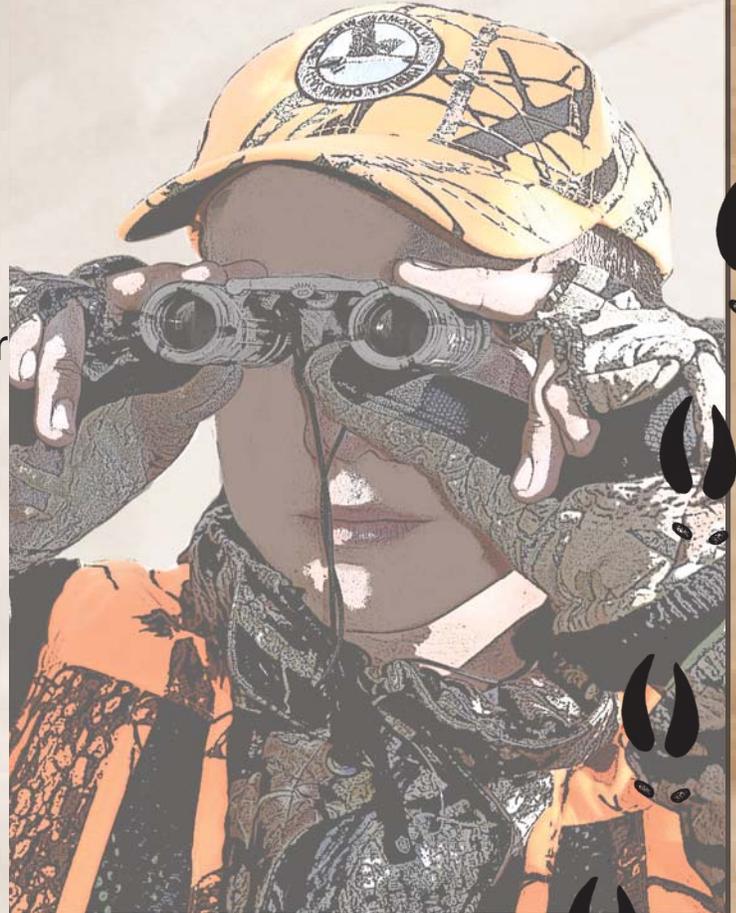

On Your Scouting Trip, Did You See any of the Following?

Buck with doe

Buck alone

Doe alone

Group of does

List some signs you saw:
