

PARTNERS IN CONSERVATION

A simple “thank you” cannot express the extent of appreciation for those who go above and beyond to lend a hand. Such is the case with the many groups that have become invaluable Partners in Conservation for Oklahoma’s tremendous natural resources. The Wildlife Department, and the sportsmen of the state, are blessed by these quality organizations that have made significant contributions to wildlife management in Oklahoma. Partners listed here contributed at least \$5,000 in 2015.

The Wildlife Department also extends sincere gratitude to the many other groups and individuals who provide support through monetary gifts or in-kind products and services in support of all Department activities. This list does not include our partners who contribute to the Department’s Wildlife Expo. Thank you, partners!

- **Quail Forever Central Oklahoma 89er Chapter** for support of ODWC projects focused on habitat enhancement on WMAs and the Stars and Stripes License Project.
- **National Wild Turkey Federation** for support of habitat enhancement on public and private lands statewide (including several WMAs open to public hunting), plus major support for ODWC outdoor educational programs.
- **Natureworks** for support of management on public lands such as Chouteau WDU, Spavinaw and Cherokee WMA.
- **Oklahoma City Zoological Park, Oklahoma Zoological Society and Botanical Garden** for conservation field study projects and to help with expenses for various projects.
- **Oklahoma Independent Petroleum Association** for a lesser prairie-chicken survey project in accordance with the Western Association of Fish and Wildlife Agencies.
- **Oklahoma Station Chapter of Safari Club International** for support of ODWC law enforcement equipment and shooting sports programs.
- **Shikar-Safari Club International** for support of ODWC law enforcement equipment purchases.
- **Larry and Brenda Potterfield, founders of MidwayUSA**, for their support of the Oklahoma Scholastic Shooting Sports Program and state tournament shooting events.
- **Rocky Mountain Elk Foundation** for its support of habitat work on WMAs open to public hunting.
- **Bank of Oklahoma** for its support of the Wildlife Department’s donor-funded Stars and Stripes License Project that offers hunting and fishing licenses to veterans and select family members at no cost to them.
- **Williams Companies** for a one-time grant of \$90,000 funded by a voluntary restoration and conservation program to support habitat conservation and restoration project for land acquisition.

YOUR DOLLARS WORK FOR CONSERVATION

If you’ve ever bought a fishing license, boat, fishing tackle, ammo or bows and arrows, you’re a part of the most successful effort to conserve fish and wildlife in America: **The Wildlife and Sport Fish Restoration Program**.

Anglers, hunters and outdoors enthusiasts pay a special excise tax whenever they buy items related to the outdoors, and that tax revenue is distributed back to the individual states. So each time an Oklahoman buys a license or outdoors-related merchandise, he or she is supporting important conservation efforts such as installing boat ramps or increasing hunting access.

Many partners join efforts to improve future of fishing

Much of the conservation and enhancement work in Oklahoma would not be possible without the vital support of our various partners and supporters. The Wildlife Department, and in turn you as a sportsman, are fortunate to have quality organizations that have made significant contributions to fisheries management in Oklahoma. These organizations are featured on our website at wildlifedepartment.com.

WSFR funds contributed to the completion of a new fishing dock at Sooner Lake.

Do You Care About Wildlife?

Operation Game Thief (OGT) is a program of the Oklahoma Department of Wildlife Conservation designed specifically to stop illegal killing of the fish and game which belong to you, whether you're an angler, sportsman or outdoor enthusiast. It's a big problem with no simple solution. Help from public sportsmen and sportswomen makes all the difference.

Here's why:

- One day before the opening of a recent deer season, two poachers killed four whitetail bucks.
- Late one summer night, three men steered their boat across a state reservoir, stopped at their illegal net site and hauled in a load of striped bass and other open-water fish they could sell for \$1 a pound on the commercial market.

In each of these examples, you were the loser. You lost hunting and fishing opportunities or the chance to view wildlife in their natural surroundings. At the same time, law-abiding sportsmen received a bad reputation from those who fail to distinguish between legal and illegal hunting. OGT is something everyone can do to help wildlife and help us apprehend the poachers.

The OGT toll-free phone number is (800) 522-8039.
Callers can remain anonymous.

Operation Game Thief trailer is on the move!

Thanks to generous contributions from the Oklahoma Station Chapter Safari Club International and Safari Club International, the Department has equipped a traveling trailer to highlight the importance of obeying game laws. The Operation Game Thief trailer is hitting the roads and educating Oklahomans young and old about wildlife conservation. Keep your eyes peeled; the trailer may be coming to an area near you!

GAME WARDENS

Law Enforcement Office Headquarters.....(405) 521-3719
(8 a.m. to 4:30 p.m. Monday-Friday)

If you can't reach your local game warden and have an emergency or see someone committing a violation, call a game warden in an adjoining county, or your local sheriff's office.

Oklahoma is a member of the Interstate Wildlife Violator Compact. More than 44 states are now Compact members. Violations in any member state can result in the loss of hunting or fishing privileges in all the member states.

This guide is not a legal document. This guide is an interpretive summary of the Titles 29 and 800 of Oklahoma Statutes governing fish and wildlife laws as established by the Oklahoma Wildlife Conservation Commission. For a complete listing of official regulations, you can obtain copies of current Oklahoma Statutes through your local library.

The mission of the Oklahoma Department of Wildlife Conservation is to manage Oklahoma's wildlife resources and habitat to provide scientific, educational, aesthetic, economic and recreational benefits for present and future generations of hunters, anglers and others who appreciate wildlife. The Wildlife Department receives no general state tax revenues and is proud to be funded entirely by sportsmen. For general information on licenses, regulations and the current fishing report, log on to wildlifedepartment.com or call (405) 521-3851. Effective date of this guide: July 1, 2015, until superceded by any subsequent guide.

Any hunter who operates an ATV/ORV at any time must comply with daylight fluorescent orange requirements as required for deer gun seasons. If a crash helmet is worn, only the fluorescent orange chest covering is required.

ATV/ORV use is restricted to WMA roads that are on the current Honobia WMA map unless otherwise closed.

Only unaltered standard manufactured ATV/ORVs with a 700 cc motor displacement or less are allowed. ATV/ORV use shall be restricted to a maximum speed of 25 miles per hour.

ATV/ORV operators and passengers under the age of 18 must wear a crash helmet that complies with standards established by 49 C.F.R., Section 571.218. Passengers in addition to the operator are not allowed on ATV/ORVs unless that ATV/ORV has been specifically designed by the manufacturer to carry passengers in addition to the operator.

Leaving any ATV/ORV unattended on Honobia WMA without the owner's name and address conspicuously attached is prohibited.

Use of ATV/ORVs off of delineated roads for retrieval of lawfully taken and tagged deer is permissible only with the following restrictions: ATV/ORVs cannot travel more than one half mile from the nearest road. ATV/ORVs cannot cross rivers and streams unless on a road with

constructed stream crossing structures. ATV/ORVs used for deer retrieval cannot be used in areas otherwise closed to the use of motor vehicles.

The WMA boundaries may change.
