## **INDEPENDENT AUDITORS' REPORT**

Oklahoma Wildlife Conservation Commission  
Oklahoma Department of Wildlife Conservation

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Oklahoma Department of Wildlife Conservation (the "Department"), a component unit of the State of Oklahoma, as of and for the years ended June 30, 2021 and 2020, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(Continued)

## **INDEPENDENT AUDITORS' REPORT, CONTINUED**

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Department, as of June 30, 2021 and 2020, and the respective changes in financial position thereof for the years then ended in accordance with accounting principles generally accepted in the United States.

### **Emphasis of Matter**

#### *Department-Only Financial Statements*

As discussed in Note 1, the financial statements of the Department are intended to present the financial position and the changes in financial position of only that portion of the governmental activities, each major fund, and the aggregate remaining fund information of the State of Oklahoma that is attributable to the transactions of the Department. They do not purport to, and do not, present fairly the financial position of the State of Oklahoma as of June 30, 2021 or 2020, or the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States. Our opinion is not modified with respect to this matter.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States require that the management's discussion and analysis on pages I-1 through I-8 and the schedule of changes in net pension liability—defined benefit pension plan, the schedule of net pension liability—defined benefit pension plan, the schedule of contributions from employer—defined benefit pension plan, the schedule of investment returns—defined benefit pension plan, the schedule of changes in total OPEB liability—health insurance allowance, the schedule of changes in net OPEB liability—implicit rate subsidy of health insurance plan OPEB liability, and the related notes to the required supplementary information on pages 75–83 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

(Continued)

## **INDEPENDENT AUDITORS' REPORT, CONTINUED**

### **Other Matters, Continued**

#### *Other Information*

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Department's basic financial statements. The accompanying schedule of expenditures of federal awards for the year ended June 30, 2021, is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2021, on our consideration of the Department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Department's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Department's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Oklahoma Department of Wildlife Conservation (the "Department"), we offer readers of the Department's financial statements this overview and analysis of the financial activities for the fiscal years ended June 30, 2021 and 2020.

### Financial Highlights

- During 2021 and 2020, the Department generated revenues of approximately \$86 million and \$64 million, respectively.
- In 2021 and 2020, the net position of the Department increased by approximately \$38 million and \$16 million, respectively, from the previous fiscal year, resulting in net position of approximately \$284 million at year-end in fiscal year 2021 and approximately \$246 million at year-end in fiscal year 2020.
- In compliance with Governmental Accounting Standards Board (GASB) 68 and GASB 71, the Department recognized a net pension asset of approximately \$3,925,000 at June 30, 2021, and a net pension liability of approximately \$16,556,000 and \$11,509,000 at June 30, 2020 and 2019, respectively.
- In compliance with GASB 75, the Department recognized a net other postemployment benefit (OPEB) liability of approximately \$11,454,000, \$10,780,000, and \$11,360,000 at June 30, 2021, 2020, and 2019, respectively.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Department's basic financial statements. The Department's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) governmental fund financial statements, and 3) notes to the financial statements.

#### *Government-Wide Financial Statements*

The government-wide financial statements (i.e., the statement of net position and the statement of activities) are designed to provide readers with a broad overview of the Department's finances, in a manner similar to a private-sector business. Taxes and intergovernmental revenues support the governmental activities.

The statement of net position presents information on all of the Department's assets and liabilities, with the difference between the two reported as net position. Increases and decreases in net position serve as useful indicators of whether the financial position of the Department is improving or deteriorating.

The statement of activities presents information demonstrating the degree of change in net position during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future periods.

## MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

### Overview of the Financial Statements, Continued

#### *Governmental Fund Financial Statements*

Governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements; however, this information may be useful in evaluating a government's near-term financing requirements. The focus of governmental funds is narrower than that of the government-wide financial statements, thus it allows readers to better understand the long-term impact of the government's near-term decision-making processes. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

Fiduciary fund financial statements provide information about the financial relationships—such as the retirement plans for the Department's employees—in which the Department acts solely as a trustee for the benefit of others, to whom the resources belong. The Department is responsible for ensuring the assets reported in these funds are used for their intended purposes. The fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. These activities are excluded from the Department's government-wide financial statements due to the Department not being allowed to use these assets to finance its operations.

The Department, for reporting purposes, maintains two governmental funds and a fiduciary fund. The two governmental funds are the general fund and permanent fund. The general fund is the primary operating fund for the Department, except those required to be accounted for in another fund. Included in the general fund are the assets and operation of the lifetime licensed investment income account. As the resources of the investment income account may be used to support the Department's activities, they are reported in the general fund. The permanent fund accounts for the sale of lifetime licenses. The Department is required to maintain lifetime license sales in perpetuity by State statute. The pension trust funds account for the activities of the Department's retirement pension plans, which accumulate resources for pension benefit payments to qualified employees. Information is presented separately in the governmental fund balance sheet for the governmental funds and the fiduciary fund. All transactions relating to the general administration of the Department are accounted for in the governmental fund statement of revenues, expenditures, and changes in fund balances, whereas the fiduciary fund is custodial in nature and does not present results of operations or have a measurement focus.

#### **Capital Assets**

The Department's investment in capital assets for its governmental activities as of June 30, 2021, 2020, and 2019, amounted to \$143,001,301, 143,544,041, and \$129,648,610, respectively. As a direct result of GASB 34 implementation, our capital assets are being depreciated on a straight-line method over the asset's useful life and reported net of accumulated depreciation.

## MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

### Changes in Net Position

Our revenue consists mainly of hunting and fishing license revenue and federal operating grants. Our agency is a constitutional agency and does not receive state appropriations. During 2021, the Department continued to see increases in license sales due to hunters and anglers taking advantage of the "Outdoors Are Always Open." During 2020, we utilized carry-over Natural Resource Damage Assessment and Restoration Program funds received in the prior fiscal year to complete planned projects and several projects were matched 75/25 with federal dollars which accounted primarily for the increase in funds from the prior fiscal year. Additionally, there was a net increase of approximately \$13,895,000 in capital assets.

In fiscal year 2021, our cash and cash equivalents (restricted and unrestricted) increased by approximately \$5,053,000, along with general revenue (including investment income) increasing by approximately \$25,209,000. In 2021, license sales increased by approximately \$1,919,000 and lifetime licenses increased by approximately \$768,000. Overall expenses decreased by approximately \$706,000. In fiscal year 2020, our cash and cash equivalents (restricted and unrestricted) decreased by approximately \$1,062,000, along with general revenue (including investment income) decreasing by approximately \$9,572,000. In 2020, license sales increased by approximately \$1,992,000 and lifetime licenses increased by approximately \$551,000. Overall expenses decreased by approximately \$1,334,000.

The fiduciary net position increased by approximately \$23,268,000 in 2021 due principally to the net appreciation in fair value of investments of approximately \$25,931,000. This resulted in net position restricted for pensions of approximately \$145 million, \$122 million, and \$121 million in fiscal years 2021, 2020, and 2019, respectively.

## MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED

### **Overview of the Oklahoma Department of Wildlife Conservation**

The Department was created by a constitutional amendment in 1956 under Article 26. The Department has the primary duties of providing management, protection, and enhancement of wildlife resources and habitat for scientific, educational, recreational, and economic benefits to present and future generations of citizens and visitors to Oklahoma as stated in O.S. 29.

The Oklahoma Wildlife Conservation Commission (the "Commission") is an advisory, administrative, and policy-making body for the Department. The eight members of the Commission are appointed to 8-year terms by the Governor and confirmed by the State Senate of Oklahoma.

Our discussion and analysis of the Department's financial performance provides an overview of the Department's financial activities for the fiscal years ended June 30, 2021 and 2020.

### **Request for Information**

This financial report is designed to provide interested parties with a general overview of the Department's finances and to demonstrate the Department's accountability for the money it receives. If you have any questions regarding this report, please contact the Oklahoma Department of Wildlife Conservation, 1801 N. Lincoln Blvd., Oklahoma City, OK 73152.

# OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION

## NOTES TO FINANCIAL STATEMENTS

June 30, 2021 and 2020

---

### (1) NATURE OF THE ORGANIZATION

#### Reporting Entity

The Oklahoma Department of Wildlife Conservation (the “Department”) was created by a constitutional amendment in 1956 under Article 26. The Department is a department of the State of Oklahoma (the “State”) and is included within the financial statements of the State. The Department has the primary duties of providing management, protection, and enhancement of wildlife resources and habitat for scientific, educational, recreational, and economic benefits to present and future generations of citizens and visitors to Oklahoma as stated in O.S. 29.

The Oklahoma Wildlife Conservation Commission (the “Commission”) is an advisory, administrative, and policy-making body for the Department. The eight members of the Commission are appointed to 8-year terms by the Governor and confirmed by the State Senate of Oklahoma.

The Department’s financial statements include the operations of all organizations for which the Department has financial accountability. Based on this criterion, the Department’s employee retirement plans have been included in the accompanying financial statements.

The financial statements of the Department are intended to present the financial position and the changes in financial position of only that portion of the governmental activities, each major fund, and the aggregate remaining fund information of the State that is attributable to the transactions of the Department, and not those of the entire State.

In July 2018, the Oklahoma Wildlife Conservation Foundation (the “Foundation”) was launched. The Foundation’s purpose is to help provide additional support for the Department and its activities in managing the State’s fish and wildlife resources and habitats. The Foundation is a discretely presented component unit of the Department; however, due to minimal activity for the years ended June 30, 2021 and 2020, the component has been excluded from the accompanying financial statements. The Foundation had total assets of approximately \$264,000 as of June 30, 2021, and total revenues and expenses of approximately \$187,000 and \$166,000, respectively, for the year ended June 30, 2021. The Foundation had total assets of approximately \$227,000 as of June 30, 2020, and total revenues and expenses of approximately \$181,000 and \$134,000, respectively, for the year ended June 30, 2020.

See Independent Auditors’ Report.

# OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION

## NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Department have been prepared in accordance with accounting principles generally accepted in the United States as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Department's accounting policies are described below.

#### Basis of Presentation and Accounting

The government-wide financial statements (i.e., the statements of net position and the statements of activities) report information on all of the nonfiduciary activities of the government. Governmental activities are supported by license fees, federal grants, and other revenues.

The statements of activities demonstrate the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items properly not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds in which major individual governmental funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Department considers receivables collected within 90 days after year-end to be available and recognizes them as revenues of the current year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences, net pension obligation, and net other postemployment benefit obligation are recorded only when payment is due.

See Independent Auditors' Report.

OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION

NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Basis of Presentation and Accounting, Continued**

The Department, in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54), has the following major governmental funds:

- The general fund is the Department’s primary operating fund. It accounts for all financial resources of the Department, except those required to be accounted for in another fund.
- The perpetual lifetime license fund is a permanent fund which accounts for assets in which the principal may not be spent. The Department is required to maintain lifetime license sales in perpetuity by State statute.

Additionally, the Department reports the following fund type:

- The pension trust funds account for the activities of the Department’s retirement plans, which accumulate resources for pension benefit payments to qualified employees.

All gains and losses arising from the sale, collection, or other disposition of investments and other noncash assets together with any ordinary income derived therefrom are accounted for in the fund owning such assets, except for gains and losses and ordinary income of the permanent fund, which are accounted for in the general fund.

***Fund Balances***

GASB 54 defines fund balances for presentation as follows:

- Nonspendable—includes amounts that cannot be spent because they are either a) not in spendable form or b) legally or contractually required to be maintained intact.
- Restricted—consists of fund balances with constraints placed on the use of the resources either by a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or b) law through constitutional provisions or enabling legislation.
- Unassigned—represents fund balances that have not been assigned to other funds and have not been restricted, committed, or assigned to specific purposes within the general fund.

See Independent Auditors’ Report.

OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION

NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Basis of Presentation and Accounting, Continued

*Fund Balances, Continued*

Based on the above definitions, the components of the Department’s fund balances are as follows:

- Nonspendable—represents the fund balance of the permanent fund, which accounts for assets derived from the sale of lifetime licenses. The nonspendable fund balance was \$96,541,683 and \$92,950,773 at June 30, 2021 and 2020, respectively. While the Department has inventory, the inventory is composed of items held for resale which will be converted into a spendable form. As such, the inventory is not a component of the nonspendable fund balance.
- Restricted—represents assets derived from the sale of \$5 hunting and fishing legacy permits. The proceeds from the permits are to be used by the Department for the purchase of land and for the operation of such lands. Legacy permit sales were \$2,359,486 and \$2,349,825 for the years ended June 30, 2021 and 2020, respectively. The restricted fund balance was \$5,152,242 and \$4,232,566 at June 30, 2021 and 2020, respectively.
- Unassigned—represents the total fund balance less nonspendable and restricted. The unassigned fund balance totaled \$59,987,039 and \$30,711,875 at June 30, 2021 and 2020, respectively.

Investment earnings from the permanent fund can be utilized for any Department purpose and are reflected in the general fund; the fund balance is classified as unassigned. At June 30, the assets were comprised as follows:

	<u>2021</u>	<u>2020</u>
Cash	\$ 1,371,410	729,119
Investments	<u>40,899,195</u>	<u>15,579,851</u>
	<u>\$ 42,270,605</u>	<u>16,308,970</u>

See Independent Auditors’ Report.

OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION

NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Basis of Presentation and Accounting, Continued**

*Fund Balances, Continued*

Changes in the fund balance associated with these assets for the years ended June 30 were as follows:

	<u>2021</u>	<u>2020</u>
Beginning fund balance	\$ 16,308,970	15,985,915
Investment earnings	26,164,900	5,006,185
Used in general fund operations	<u>(203,265)</u>	<u>(4,683,130)</u>
Ending fund balance	<u>\$ 42,270,605</u>	<u>16,308,970</u>

As discussed previously, the Department also receives significant amounts of federal grants. Federal grant monies are considered restricted funds. However, the expenditures for federal grants are principally on a reimbursement basis, and at June 30, 2021 and 2020, there were no significant amounts of unspent federal monies; thus, there were no restricted fund balances related to federal grants. The Department chooses to spend federal grant monies first if both federal and nonfederal monies are available and can be spent for the same allowable purposes.

The Department's budgeting process determines what source to use for land acquisitions when both restricted and unrestricted resources are available, except that federal resources are always expended first.

**Cash, Cash Equivalents, and Investments**

Cash includes amounts on deposit with the Office of the State Treasurer, which is responsible for ensuring proper collateralization and insurance on such funds. Cash equivalents include all highly liquid investments with an original maturity of 3 months or less when purchased. Investments are stated at fair value based on the value reported by independent sources.

State statutes authorize the Department to invest the fiduciary fund in any investment permitted by a written investment policy adopted by the Commission, provided all investments shall be made in accordance with the Oklahoma Uniform Prudent Investor Act. The investment policies allow for investments such as publicly traded stocks, convertible bonds and preferred stocks, alternative investments, and fixed-income securities, whether interest-bearing or discount instruments.

The Department participates in a master investment program operated by the Office of the State Treasurer. The Office of the State Treasurer makes investments at its discretion on behalf of the Department. These investments are mainly composed of certificates of deposit, obligations of the U.S. government and its agencies, and money market funds.

See Independent Auditors' Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Derivatives**

Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates, or financial indexes. They include futures contracts, swap contracts, options contracts, and forward foreign currency exchange. The Department's derivative policy only allows the selling of covered call options on currency futures contracts, of which there were none as of June 30, 2021 or 2020.

The Department invests in mortgage-backed securities, which are reported at fair value in the statements of net position, the balance sheets, and the statements of fiduciary net position and are based on the cash flows from interest and principal payments by the underlying mortgages. As a result, they are sensitive to prepayments by mortgagees, which are likely in declining interest rate environments, thereby reducing the values of these securities. The Department invests in mortgage-backed securities to diversify the portfolio and increase the return while minimizing the extent of risk. Details regarding interest rate risks for these investments are included under the interest rate risk disclosures.

**Inventory Held for Sale and Unearned Revenue**

The Department's inventory held for sale is comprised of paddlefish caviar from the 2021 and 2020 harvests. Buyers must make a 30% deposit and apply for a permit to transport the product across Oklahoma state lines. A sale is recognized when the permit is obtained and the balance is paid. The deposit is included in unearned revenue until the sale is recognized. At June 30, 2021 and 2020, the Department had no unearned revenue.

**Lifetime Licenses**

The lifetime licenses sold by the Department are recorded as license revenue upon receipt in the permanent fund. The lifetime license revenue is nonrefundable and is not available for use by the Department. Investment income earned on the assets of the permanent fund is available for use by the Department.

**Legacy Permit Sales**

The legacy permit sales sold by the Department are recorded as revenue upon receipt in the general fund. The legacy permit revenue is restricted for use by the Department for the purchase of land and for the operation for such land.

See Independent Auditors' Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Capital Assets**

All capital assets are stated at cost at the date of acquisition or fair value at the date of donation, net of accumulated depreciation. Capital assets are defined as long-lived assets with initial individual costs greater than \$500. Depreciation is computed on the straight-line method over the following estimated useful lives:

Buildings	39 years
Equipment	5–20 years
Furniture and fixtures	5–10 years
Machinery	10 years
Vehicles	5–8 years
Other	5–20 years

Expenses that increase values, change capacities, or extend useful lives are capitalized. Routine maintenance, repairs, and renewals are charged to operations. Upon disposition of capital assets, the cost and related accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is reflected in the period in which the asset is disposed.

**Pensions**

*Defined Benefit Pension Plan*—For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Department’s defined benefit pension plan and additions to/deductions from the Department’s defined benefit pension plan’s fiduciary net position have been determined on the same basis as they are reported by the Department’s defined benefit pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. As more explained in Note 7, the defined benefit plan was frozen so as to not allow employees hired after July 1, 2010, to participate.

*Defined Contribution Plan*—The Department also has a defined contribution plan. The defined contribution plan is more fully discussed in Note 8.

See Independent Auditors’ Report.

OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION

NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Other Postemployment Benefits (OPEB)**

*Health Insurance Allowance*—The Department provides at its expense a health insurance allowance of up to \$250 per month for the payment of health insurance premiums for eligible employees when they retire.

*Implicit Rate Subsidy of Health Insurance Plan (IRSHIP) OPEB Liability*—The Department participates in the Oklahoma Employees Group Insurance Division (EGID) health insurance plan, which is a non-trusted single-employer plan that provides for employee and dependent healthcare coverage from the date of retirement to age 65, provided the participant was covered by the health insurance plan before retiring.

These OPEB plans are more fully discussed in Note 9.

**Compensated Absences**

In the government-wide statements, vested or accumulated vacation leave is recorded as an expense and a liability as the benefits accrue to employees. There are no accumulated sick leave benefits that vest for which any liability must be recognized.

**Income Taxes**

As an integral part of the State, the income of the Department is exempt from federal and state income taxes.

**Federal Financial Awards**

The federal government provides financial aid to the Department in the form of grants. The funds received are restricted for restoring, conserving, and enhancing wildlife and sport fish populations. The Department primarily receives federal funds through two federal programs—the Wildlife Restoration Act and the Sport Fish Restoration Program—which make-up the Fish and Wildlife Cluster. The Department considers this financial assistance as a significant part of its general operating activities; therefore, the receipts and disbursements of each program are reported within the general fund.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

See Independent Auditors' Report.

OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION

NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Risks and Uncertainties**

Contributions to the defined benefit retirement plan of the Department are actuarially determined based on certain assumptions based on interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least a reasonable possibility that changes in these assumptions may occur in the near term and, due to uncertainties inherent in setting assumptions, that the effect on such changes could be material to the financial statements.

In addition, the Department reports investments in the various funds at fair value, and changes in the stock markets, in all probability, will cause investment earnings to react positively or negatively. Such reactions could be material to the overall financial position of the Department.

**Advertising Costs**

All costs associated with advertising are expensed as incurred.

**Recent Accounting Pronouncements**

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities* (GASB 84). GASB 84 improves guidance regarding the recognition and reporting of fiduciary activities. GASB 84 identifies four types of reportable fiduciary fund types, including 1) pension (and other employee benefit) trust funds, 2) investment trust funds, 3) private-purpose trust funds, and 4) custodial funds. GASB 84 outlines the accounting and disclosure requirements for operating structures that qualify as a fiduciary activity. The Department adopted GASB 84 effective July 1, 2020, for the June 30, 2021, reporting year, which did not have a significant impact on the financial statements.

In June 2017, GASB issued Statement No. 87, *Leases* (GASB 87). GASB 87 defines a lease as a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. GASB 87 improves accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB 87, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The Department adopted GASB 87 on July 1, 2021, for the June 30, 2022, reporting year. GASB 87 will have an impact on the financial statements.

See Independent Auditors' Report.

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Recent Accounting Pronouncements, Continued**

In March 2018, GASB issued Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements* (GASB 88). GASB 88 provides certain clarifications regarding debt as a liability and identifies additional required disclosures related to debt, including direct borrowings and direct placements of debt. The Department adopted GASB 88 on July 1, 2020, for the June 30, 2021, reporting year, which did not have a significant impact on the financial statements.

In June 2018, GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period* (GASB 89). GASB 89 directs that interest costs incurred during the construction period of an asset be expensed in the period incurred. GASB 89 changes previous guidance regarding capitalized construction costs where such costs were typically included in the capitalized cost of the asset constructed and depreciated over time. The Department adopted GASB 89 on July 1, 2021, for the June 30, 2022, reporting year. The Department does not expect GASB 89 to significantly impact the financial statements.

In August 2018, GASB issued Statement No. 90, *Majority Equity Interests* (GASB 90), an amendment of GASB Statements No. 14 and No. 61. GASB 90 seeks to improve the consistency and comparability of financial reporting for majority equity interests, or situations where an entity would hold a majority share of equity or have a measurable right to resources of a legally separate entity. Under GASB 90, specific guidance is also provided for governments engaged in fiduciary activities when reporting equity interests. The Department adopted GASB 90 on July 1, 2020, for the June 30, 2021, reporting year, which did not have a significant impact on the financial statements.

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations* (GASB 91). The objective of GASB 91 is to provide a single method of reporting for conduit debt obligations issued and eliminate diversity in practice regarding 1) commitments extended by issuers, 2) arrangements associated with conduit debt obligations, and 3) related note disclosures. The Department will adopt GASB 91 on July 1, 2022, for the June 30, 2023, reporting year. The Department does not expect GASB 91 to have a significant impact the financial statements.

See Independent Auditors' Report.

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Recent Accounting Pronouncements, Continued**

In January 2020, GASB issued Statement No. 92, *Omnibus 2020* (GASB 92). GASB 92 is a cleanup omnibus that addresses multiple issues including; interim lease reporting, intra-entity asset transfers between the primary government and a component unit for defined benefit pension and OPEB plans, reporting of postemployment benefit plans that do not meet the definition of a trust, applicability of certain fiduciary activities to postemployment benefit arrangements, measurement of liabilities and assets related to ARO's (asset retirement obligations) in a government acquisition, reporting by public entity risk pools, references to nonrecurring fair value measurements of assets and liabilities and terminology used when referring to derivative instruments. The Department adopted GASB 92 on July 1, 2020, for the June 30, 2021, reporting year, which did not have a significant impact on the financial statements.

In March 2020, GASB issued Statement No. 93, *Replacement of Interbank Offer Rates* (GASB 93). GASB 93 addresses upcoming changes and the eventual removal of a global reference rate called LIBOR (London Interbank Offered Rate) which is often used as a reference rate for variable and derivative instruments. GASB 93 addresses allowable exceptions to existing contracts and agreements where LIBOR can be replaced with another IBOR without needed a new contract. GASB 93 also identifies the SOFR (Secured Overnight Financing Rate) and the FFR (Federal Funds Rate) as benchmarks for evaluating interest rate swaps. Finally, GASB 93 modifies lease agreements to allow for a change in the IBOR without being considered a modification to a lease. The Department adopted GASB 93 on July 1, 2020, for the June 30, 2021, reporting year, which did not have a significant impact on the financial statements.

In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* (GASB 94). GASB 94 defines and provides financial reporting requirements for Public-Private or Public-Public Partnerships (PPP) and Availability Payment Arrangements (APA). A PPP is an arrangement between a government (transferor) and an operator (governmental or non-governmental) to provide public services by conveying the right to control or use a nonfinancial or infrastructure asset for a period of time in an exchange-like transaction. An APA is a similar arrangement where the operator may also be compensated for services that include designing, constructing, financing and maintaining a nonfinancial asset for a period of time. The Department will adopt GASB 94 on July 1, 2022, for the June 30, 2023, reporting year. GASB 94 will not have a significant impact on the Department's financial statements.

See Independent Auditors' Report.

OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION

NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

(2) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Recent Accounting Pronouncements, Continued**

In May 2020, GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance* (GASB 95). GASB 95 provides temporary postponement of the effective dates of certain provisions in GASB Statements and Implementation Guides that first became effective or are scheduled to become effective after June 15, 2018. Most affected statements are postponed by one year while GASB Statement No. 87, *Leases*, and Implementation Guide No. 2019-3, *Leases*, are postponed by 18 months. GASB 95 was effective immediately for the June 30, 2020, reporting year. The Department does not anticipate a significant impact on the financial statements due to GASB 95.

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements* (GASB 96). GASB 96 provides accounting and financial reporting guidance for the governmental end users of subscription-based information technology arrangements (SBITAs). GASB 96 defines an SBITA, establishes right-to-use assets and corresponding liabilities, and provides capitalization criteria and the note disclosures required for SBITAs. The Department will adopt GASB 96 on July 1, 2022, for the June 30, 2023, reporting year. The Department does not expect GASB 96 to significantly impact the financial statements.

In June 2020, GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans* (GASB 97). GASB 97 seeks to improve consistency and comparability related to fiduciary component unit reporting in circumstances where the potential component unit does not have a governing board and the primary government performs such duties. GASB 97 also seeks to mitigate reporting costs for certain defined-contribution, OPEB and other employee benefit plans as fiduciary component units and to enhance the relevance, consistency and comparability of Internal Revenue Code (IRC) Section 457 deferred compensation plans. Portions of GASB 97 were effective immediately for the June 30, 2020, reporting year. The Department will adopt sections of GASB 97 related to IRC Section 457 plans on July 1, 2021, for the June 30, 2022, reporting year. GASB 97 will not significantly impact the Department's financial statements.

See Independent Auditors' Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**Tribal Compact Agreements**

The State and the Choctaw Nation entered into a 3-year hunting and fishing compact during 2017. The State and the Cherokee Nation entered into a 3-year hunting and fishing compact during 2016. Both compacts provide for the Department to issue a joint tribal hunting and fishing license to members of the Choctaw Nation and the Cherokee Nation at a discount if certain conditions, as outlined in the compacts, are met. Both compacts expired and both have been extended through December 31, 2021. The State is currently negotiating terms for renewing the compacts with both tribes.

**Date of Management's Review of Subsequent Events**

The Department has evaluated subsequent events through November 1, 2021, the date which the financial statements were available to be issued, and determined that no subsequent events have occurred which require adjustment to or disclosure in the financial statements.

**(3) CASH, CASH EQUIVALENTS, AND INVESTMENTS**

**Cash and Cash Equivalents**

At June 30, 2021 and 2020, the Department maintained cash and cash equivalent balances of approximately \$24,678,000 and \$20,092,000, respectively, with the Office of the State Treasurer and approximately \$3,197,000 and \$2,730,000, respectively, with a financial institution. The Department's deposits with the Office of the State Treasurer are pooled with the funds of other state agencies and then, in accordance with statutory limitations, placed in banks or invested as the Office of the State Treasurer may determine. Deposits are fully insured or collateralized with securities held by an agent of the State, in the State's name.

See Independent Auditors' Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

**(3) CASH, CASH EQUIVALENTS, AND INVESTMENTS, CONTINUED**

**Investments**

At June 30, investments were composed of the following:

	<u>2021</u>	<u>2020</u>
Restricted—permanent fund	\$ 90,506,205	87,184,132
Unrestricted—lifetime license investment account	<u>40,899,195</u>	<u>15,579,851</u>
Total permanent fund and lifetime license investment account	<u>131,405,400</u>	<u>102,763,983</u>
Pension trust funds:		
Defined benefit pension plan	141,740,479	118,471,982
Defined contribution plan	<u>5,793,273</u>	<u>3,702,810</u>
Total pension trust funds	<u>147,533,752</u>	<u>122,174,792</u>
 Total investments	 <u>\$ 278,939,152</u>	 <u>224,938,775</u>

As a key part of the Department’s activities, the Department holds investments that are measured and reported at fair value on a recurring basis. Generally accepted accounting principles establish a fair value hierarchy for the determination and measurement of fair value. This hierarchy is based on the type of valuation inputs needed to measure the fair value of an asset. The hierarchy generally is as follows:

Level 1—Unadjusted quoted prices in active markets for identical assets.

Level 2—Quoted prices for similar assets, or inputs that are observable or other forms of market corroborated inputs.

Level 3—Pricing based on best available information, including primarily unobservable inputs and assumptions market participants would use in pricing the asset.

In addition to the above three levels, if an investment does not have a readily determined fair value, the investment can be measured using net asset value (NAV) per share (or its equivalent). Investments valued at NAV are categorized as NAV and not listed as Level 1, 2, or 3. As of June 30, 2021 and 2020, the Department had no investments measured using NAV. Fair values of investments by level are presented below.

See Independent Auditors’ Report.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

---

(3) CASH, CASH EQUIVALENTS, AND INVESTMENTS, CONTINUED

Investments, Continued

*Permanent Fund and Lifetime License Investment Account, Continued*

*Custodial Credit Risk*—Custodial credit risk is the risk that in the event of the failure of a counterparty, the Department will not be able to recover the value of its investments. Investment securities are exposed to custodial credit risk if they are uninsured, are not registered in the name of the Department, or are held by a counterparty or the counterparty's trust department but not in the name of the Department. While the investment policy does not specifically address custodial credit risk, all cash, cash equivalents, and investments are insured and collateralized.

*Concentration of Credit Risk*—The investment policy limits the concentration of equity investments to no more than 10% in any one issuer. The investment policy does not address concentrations of fixed-income securities. No single investment exceeded 5% of total investments in the permanent fund and lifetime license investment account, except for individual investments in U.S. government agencies. At June 30, 2021 and 2020, the permanent fund and the lifetime license investment account did have more than 5% invested in U.S. government obligations; however, these obligations are backed by the full faith and credit of the United States.

*Foreign Currency Risk*—Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The investment policy limits foreign fixed income investments to 10% of total fixed income allocation. Yankee bonds are foreign country bonds but are traded in U.S. dollars with interest also being paid in U.S. dollars. As such, they are not subject to foreign currency risk. The international equity securities owned by the Department are traded in U.S. dollars with dividends also being paid in U.S. dollars. As such, they are not subject to foreign currency risk.

See Independent Auditors' Report.

(3) CASH, CASH EQUIVALENTS, AND INVESTMENTS, CONTINUED

Investments, Continued

*Pension Trust Funds, Continued*

Defined Benefit Pension Plan, Continued

Management of the Department is authorized to invest in eligible investments as approved by the Commission as set forth in its investment policy. The Commission reviews and updates the plan investment policy at least annually, making changes as deemed necessary to achieve policy goals. An investment policy change can be made anytime the need should arise at the discretion of the Commission.

*Investment Allocation Policy*—The Department’s asset allocation policy for the defined benefit pension plan will currently maintain approximately 50% of assets in equity instruments; approximately 40% of assets in fixed income; and approximately 10% of assets in alternative investments to include diversified alternative strategies, hedged equities, real assets (commodities and real estate), private equities, and low correlation strategies.

*Significant Investment Policy Changes Made During the Year*—No significant investment policy changes were made during the year ended June 30, 2021 or 2020.

*Rate of Return*—For the years ended June 30, 2021 and 2020, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 23.18% and 5.32%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

*Method Used to Value Investments*—The defined benefit plan investments are reported at fair value. Cash and cash equivalents include an investment fund composed of an investment in units of a money market fund of the defined benefit plan’s custodial agent (which is valued at cost, which approximates fair value). Debt, equity, and open-end mutual funds securities are reported at fair value, as determined by the defined benefit plan’s custodial agent, using pricing services or prices quoted by independent brokers based on the latest reported sales prices at current exchange rates for securities traded on national or international exchanges. Net investment income (loss) includes net appreciation (depreciation) in the fair value of investments, interest income, dividend income, and investment expenses, which includes investment management and custodial fees and all other significant investment related costs. Foreign currency translation gains and losses are reflected in the net appreciation (depreciation) in the fair value of investments.

See Independent Auditors’ Report.

OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION

NOTES TO FINANCIAL STATEMENTS, CONTINUED

(3) CASH, CASH EQUIVALENTS, AND INVESTMENTS, CONTINUED

Investments, Continued

*Pension Trust Funds, Continued*

Defined Benefit Pension Plan, Continued

*Custodial Credit Risk*—Custodial credit risk is the risk that in the event of the failure of a counterparty, the Department will not be able to recover the value of its investments. Investment securities are exposed to custodial credit risk if they are uninsured, are not registered in the name of the Department, or are held by a counterparty or the counterparty’s trust department but not in the name of the Department. While the investment policy does not specifically address custodial credit risk, all cash, cash equivalents, and investments are insured and collateralized.

*Concentration of Credit Risk*—The investment policy limits the concentration of equity investments to no more than 5% in any one issuer. The investment policy does not address concentrations on fixed-income securities. Except as noted below, no single investment exceeds 5% of the defined benefit pension plan’s total investments. The defined benefit pension plan at June 30, 2021 and 2020, did have more than 5% invested in U.S. government obligations; however, these obligations are backed by the full faith and credit of the United States. The following table presents the individual investments exceeding the 5% threshold at June 30:

<u>Classification of Investment</u>	<u>Name of Investment</u>	<u>Shares Held</u>	<u>Cost</u>	<u>Fair Value</u>
<u>2021</u>				
Fixed income	Baird Aggregate Bd	630,420	\$ 7,401,590	7,243,522
Fixed income	PIMCO Inc.	704,708	8,188,053	8,548,106
Fixed income	Met West Total Return	656,640	7,263,757	7,217,387
<u>2020</u>				
Equity fund	Ishares Russell 1000	73,112	\$ 11,515,864	12,551,868

*Foreign Currency Risk*—Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The investment policy limits foreign fixed income investments to 10% of total fixed income allocation. Yankee bonds are foreign country bonds but are traded in U.S. dollars, with interest also being paid in U.S. dollars. As such, they are not subject to foreign currency risk. The international equity securities owned by the Department are also traded in U.S. dollars, with dividends also being paid in U.S. dollars. As such, they are not subject to foreign currency risk.

Defined Contribution Plan

The following table presents the fair value of the defined contribution plan's investments by type at June 30:

<u>Investment Type</u>	<u>Fair Value</u>	
	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$ 196,738	181,537
Equities:		
Equity funds	<u>5,596,535</u>	<u>3,521,273</u>
	<u>\$ 5,793,273</u>	<u>3,702,810</u>

*Custodial Credit Risk*—Custodial credit risk is the risk that in the event of the failure of a counterparty, the Department will not be able to recover the value of its investments. Investment securities are exposed to custodial credit risk if they are uninsured, are not registered in the name of the Department, or are held by a counterparty or the counterparty's trust department but not in the name of the Department. While the trust agreement does not specifically address custodial credit risk, all cash, cash equivalents, and investments are insured and collateralized.

See Independent Auditors' Report.

**(7) DEFINED BENEFIT PENSION PLAN**

**Description**

The Department’s defined benefit pension plan (the “Plan”) is a single-employer plan that covers the employees of the Department with a hire date prior to July 1, 2010. Employees hired on or after July 1, 2010, are not eligible to participate in the Plan as the Plan was frozen as of that date for new-hires. Those employees are eligible for participation in the Department’s defined contribution plan. The Plan provides retirement, disability, and death benefits to plan members and their beneficiaries. Cost-of-living adjustments are provided at the discretion of the Commission. Title 29 of the Oklahoma Statutes assigns the authority to establish and amend the benefit provisions of the Plan to the Commission.

The Plan’s membership consisted of the following as of June 30:

	<u>2021</u>	<u>2020</u>
Retirees, disabled, and beneficiaries currently receiving benefits	247	240
Terminated vested participants	26	26
Active participants	<u>181</u>	<u>188</u>
	<u>454</u>	<u>454</u>

All permanent, full-time employees with a hire date prior to July 1, 2010, are eligible to participate in the Plan on the date of employment. The member must enter service prior to age 60, except law enforcement employees are not eligible if entering service after age 54.

Benefit provisions are determined at 2.5% of the highest 3 years’ annual covered compensation received during the last 10 years of participating service multiplied by the number of years of credited service. For employees hired after July 1, 1995, the maximum benefit is 85% of the above-mentioned annual covered compensation and the minimum benefit is \$50 per month. A maximum of 5 years’ military service may be credited to the years of service calculation. Normal retirement age under the Plan is age 65. However, a participant may elect early retirement at age 55, having at least 15 years of credited service, for a reduced benefit equal to the maximum benefit allowed under normal retirement, reduced 2% for each year the participant receives a benefit prior to age 62. Members are eligible for special retirement upon reaching age 55 and if the sum of the participant’s age and years of continuous service equals or exceeds 85. Members become fully vested upon completing 10 years of credited service. Members’ contributions are 100% vested immediately and may be withdrawn, plus accrued interest, upon termination of employment.

See Independent Auditors’ Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(7) DEFINED BENEFIT PENSION PLAN, CONTINUED**

**Description, Continued**

The Plan does not issue stand-alone financial statements and related required supplementary information. The information is included within these financial statements, notes to the financial statements, and Schedules I through IV following the notes to the financial statements.

**Contributions**

The contribution requirements of the plan members are established and amended by the Commission. The members' required contribution rate was 5% for both 2021 and 2020. The Department is required to contribute at an actuarially determined rate. The actuarially required contributions during fiscal years 2021 and 2020 were approximately \$2,711,000 and \$2,485,000, respectively.

**Net Pension (Asset) Liability**

The components of the net pension (asset) liability at June 30 were as follows:

	<u>2021</u>	<u>2020</u>
Total pension liability	\$ 137,815,589	135,027,525
Plan fiduciary net position	<u>141,740,479</u>	<u>118,471,982</u>
Employers' net pension (asset) liability	<u>\$ (3,924,890)</u>	<u>16,555,543</u>
Plan fiduciary net position as a percentage of the total pension liability	<u>102.85%</u>	<u>87.74%</u>

See Independent Auditors' Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(7) DEFINED BENEFIT PENSION PLAN, CONTINUED**

**Net Pension (Asset) Liability, Continued**

*Actuarial Assumptions*—The total pension liability was determined by an actuarial valuation as of July 1, 2021 and 2020, using the following actuarial assumptions, applied to all prior periods included in the measurement:

Inflation:	3.0%
Salary increases:	3.0% to 8.0%, including inflation
Asset valuation method:	5-year smoothed market
Actuarial cost method:	Entry age normal
Amortization method:	Level dollar, open
Remaining amortization period:	Average future working lifetime of active members
Investment rate of return:	7.0% net of pension plan investment expenses
Mortality rates:	Active members: RP-2014 Employee Mortality Table with Blue Collar Adjustment, projected to 2030 with Scale BB Retired members: RP-2014 Mortality Table for Healthy Annuitants with Blue Collar Adjustment, projected to 2030 with Scale BB Disabled members: RP-2014 Mortality Table for Disabled Annuitants, projected to 2030 with Scale BB
Cost-of-living adjustment:	None

The actuarial assumptions used in the July 1, 2021, and July 1, 2020, valuations were based on the results of an actuarial experience study for the period July 1, 2010, to June 30, 2015.

See Independent Auditors' Report.

OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION

NOTES TO FINANCIAL STATEMENTS, CONTINUED

(7) DEFINED BENEFIT PENSION PLAN, CONTINUED

Net Pension (Asset) Liability, Continued

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan’s target asset allocation as of June 30 (see discussion of the pension plan’s investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	
	<u>2021</u>	<u>2020</u>
Fixed income	3.12%	2.68%
Equity	8.26%	8.02%
Alternative investments	3.55%	3.07%

*Discount Rate*—The discount rate used to measure the total pension (asset) liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the Department will be at least 100% of the Department’s required contribution. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Net Pension (Asset) Liability to Changes in the Discount Rate*—The following presents the net pension (asset) liability, calculated using the discount rate of 7.0%, as well as what the Plan’s net pension (asset) liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.0%) or 1 percentage point higher (8.0%) than the current rate:

	<u>1% Decrease (6.0%)</u>	<u>Current Discount Rate (7.0%)</u>	<u>1% Increase (8.0%)</u>
<u>June 30, 2021</u>			
Net pension (asset) liability	<u>\$ 10,779,547</u>	<u>(3,924,890)</u>	<u>(16,498,063)</u>
<u>June 30, 2020</u>			
Net pension liability	<u>\$ 31,186,399</u>	<u>16,555,543</u>	<u>4,069,884</u>

See Independent Auditors' Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(8) DEFINED CONTRIBUTION PLAN**

The Department’s defined contribution plan (the “DC Plan”) is a single-employer plan that covers the employees of the Department with a hire date of July 1, 2010, or later. The DC Plan provides retirement benefits to plan members and their beneficiaries. At June 30, 2021 and 2020, there were 159 and 144 plan members, respectively. Plan members are required to contribute 5% of compensation annually. The Department’s annual contribution is based on the employee’s number of completed years of credited service with the Department, defined as follows:

<u>Years of Credited Service</u>	<u>Percent of Compensation Contributed by the Employer</u>
Less than 5	6%
At least 5 but less than 10	8%
At least 10 but less than 15	10%
At least 15 or more	12%

Employees vest in 100% of the Department’s contributions after 5 years of credited service.

For the years ended June 30, 2021 and 2020, the Department contributed \$482,673 and \$418,259, respectively, and eligible employees contributed \$344,342 and \$306,946, respectively, to the DC Plan.

**(9) OTHER POSTEMPLOYMENT BENEFITS**

***HEALTH INSURANCE ALLOWANCE OPEB***

**Description**

The Department provides at its expense a health insurance allowance of up to \$250 per month for the payment of health insurance premiums for eligible employees when they retire. The allowance is for retirees who elect post-retirement medical coverage through the umbrella of the State’s group plan. The allowance is reduced when the retiree is eligible for Medicare. Providing for the insurance allowance is considered an “other postemployment benefit” (OPEB).

**Funding Policy**

The health insurance allowance amount is established by the Commission on an annual basis. The required contribution is based on projected “pay-as-you-go” requirements. There are no monies deposited into a separate account to fund the payments, and the Department can discontinue the policy of providing for the payments at its discretion. The amounts of the retiree insurance cost paid for the years ended June 30, 2021 and 2020, were approximately \$405,000 and \$390,000, respectively.

See Independent Auditors’ Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(9) OTHER POSTEMPLOYMENT BENEFITS, CONTINUED**

***HEALTH INSURANCE ALLOWANCE OPEB, CONTINUED***

**Total OPEB Liability**

At June 30, 2021 and 2020, the Department's total OPEB liability of \$9,246,835 and \$8,733,475, respectively, was determined by an actuarial valuation as of June 30, 2021 and 2020.

*Actuarial Methods and Assumptions*—The total OPEB liability was determined on an actuarial valuation prepared as of June 30, 2021 and 2020:

Investment rate of return:	Not applicable, as the OPEB plan is unfunded and benefits are not paid from a qualifying trust.
Healthcare cost trend rate:	5.00%
Mortality rates:	Active members: RP-2014 Employee Mortality Tables with Blue Collar Adjustment, projected to 2030 with Scale BB (separate rates for males and females). Retired members: RP-2014 Mortality Table for Healthy Annuitants with Blue Collar Adjustment, projected to 2030 with Scale BB (separate rates for males and females). Disabled members: RP-2014 Mortality Table for Disabled Annuitants with Blue Collar Adjustment, projected to 2030 with Scale BB (separate rates for males and females).
Assumed inflation rate:	3.00% per year
Actuarial cost method:	Entry age normal

The actuarial assumptions used in the June 30, 2021 and 2020, valuations were based on the results of an actuarial experience study for the period July 1, 2010, to June 30, 2015.

*Discount Rate*—The discount rate used to measure the total OPEB liability was 2.18% for 2021 and 2.66% for 2020. For OPEB plans without assets, the total OPEB liability was measured using a 20-year municipal bond index rate (AA/Aa or higher) as of the measurement date.

See Independent Auditors' Report.

(9) **OTHER POSTEMPLOYMENT BENEFITS, CONTINUED**

***IMPLICIT RATE SUBSIDY OF HEALTH  
INSURANCE PLAN OPEB LIABILITY***

**Description**

The Department participates in the EGID health insurance plan, which is a non-trusted single-employer plan that provides for employee and dependent healthcare coverage from the date of retirement to age 65, provided the participant was covered by the health insurance plan before retiring.

In conjunction with providing the postretirement medical benefits through the health insurance plan, the State determined that an OPEB liability existed in relation to an implicit rate subsidy. The State calculated the implicit rate subsidy of health insurance plan OPEB liability (IRSHIP OPEB liability) for all State agencies that participate in the EGID health insurance plan and whose payroll is processed through the State's payroll system. The Department met these criteria and therefore was one of the agencies included in the State's calculation.

As previously discussed, the Department adopted GASB 75 effective July 1, 2017, which required the recording of the Department's allocated share of the net OPEB liability, deferred outflows, deferred inflows, and OPEB expense associated with the IRSHIP OPEB liability.

The IRSHIP provides members with postretirement medical benefits until age 65 if the retiree and spouse pay the full active premium. Participants in the health insurance plan can elect to enroll in special coverage, and surviving spouses may continue in the plan until age 65. Contributions to the health insurance plan are made by both participants and the Department on a "pay as you go" basis. Department contributions for the years ended June 30, 2021 and 2020, were approximately \$164,000 and \$166,000, respectively.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and  
Deferred Inflows of Resources Related to OPEB**

At June 30, 2021 and 2020, the Department reported a liability for its proportionate share of the net IRSHIP OPEB liability. The net IRSHIP OPEB liability was measured as of June 30, 2020 and 2019, respectively, and the total IRSHIP OPEB liability used to calculate the net IRSHIP OPEB liability was determined by an actuarial valuation as of July 1, 2020 and 2019, respectively. The Department's proportion of the net IRSHIP OPEB liability was based on the Department's active employees as of July 1, 2020 and 2019, respectively, to all active employees of the state agencies included in the State's calculation. Based upon this information, the Department's proportion was 1.55308360% and 1.54826840%, at June 30, 2021 and 2020, respectively.

See Independent Auditors' Report.

***IMPLICIT RATE SUBSIDY OF HEALTH  
INSURANCE PLAN OPEB LIABILITY, CONTINUED***

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and  
Deferred Inflows of Resources Related to OPEB, Continued**

For the years ended June 30, 2021 and 2020, the Department recognized IRSHIP OPEB benefits of \$(58,581) and \$(698,733), respectively. At June 30, 2021 and 2020, the Department reported deferred outflows of resources and deferred inflows of resources related to the IRSHIP OPEB liability from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
<u>2021</u>		
Changes in assumptions	\$ 154,320	148,183
Department contributions subsequent to the measurement date	<u>163,891</u>	<u>-</u>
	<u>\$ 318,211</u>	<u>148,183</u>
<u>2020</u>		
Changes in assumptions	\$ -	214,921
Department contributions subsequent to the measurement date	<u>166,354</u>	<u>-</u>
	<u>\$ 166,354</u>	<u>214,921</u>

Reported deferred outflows of resources of \$163,891 related to IRSHIP OPEB resulting from the Department's contributions subsequent to the measurement date will be recognized as a decrease of the net IRSHIP OPEB liability in the year ending June 30, 2022. Any other amounts reported as deferred inflows of resources related to the IRSHIP OPEB liability as of June 30, 2021, will be recognized in OPEB expense as follows:

Years Ending June 30:	
2022	\$ (39,312)
2023	(21,971)
2024	(2,974)
2025	25,505
2026	25,505
Thereafter	<u>19,384</u>
	<u>\$ 6,137</u>

INSURANCE PLAN OPEB LIABILITY, CONTINUED***

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and  
Deferred Inflows of Resources Related to OPEB, Continued**

*Actuarial Methods and Assumptions*—The total IRSHIP OPEB liability was determined based on actuarial valuations prepared using July 1, 2020 and 2019, measurement dates using the following actuarial assumptions:

- Investment return—Not applicable, as the health insurance plan is unfunded, and benefits are not paid from a qualifying trust.
- Mortality rates—Pub-2010 Public Retirement Plans General Mortality Table, weighted by Headcount projected by MP-2020 for 2020. Pub-2010 Public Retirement Plans General Mortality Table, weighted by Headcount projected by MP-2019 for 2019.
- Salary scale, retirement rate, withdrawal rate, and disability rate actuarial assumptions are based on rates for the various retirement systems that the health insurance plan’s participants are in, including—
  - Oklahoma Public Employees Retirement System
  - Oklahoma Law Enforcement Retirement System
  - Teachers’ Retirement System of Oklahoma
  - Uniform Retirement System of Justices & Judges
  - Oklahoma Department of Wildlife Conservation Defined Benefit Pension Plan

See Independent Auditors’ Report.

***IMPLICIT RATE SUBSIDY OF HEALTH  
INSURANCE PLAN OPEB LIABILITY, CONTINUED***

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and  
Deferred Inflows of Resources Related to OPEB, Continued**

*Actuarial Methods and Assumptions, Continued—*

- Plan participation—40% of retired employees are assumed to participate in the health insurance plan.
- Marital assumptions—Male participants: 25% who elect coverage are assumed to have a spouse who will receive coverage

Female participants: 15% who elect coverage are assumed to have a spouse who will receive coverage

Males are assumed to be 3 years older than their spouses

- Plan entry date is the date of hire
- Actuarial cost method—Entry age normal based upon salary
- Healthcare trend rate—5.30% decreasing to 5.00%

The June 30, 2021, valuation is based on a measured date of July 1, 2020, with a measurement period of July 1, 2019, to July 1, 2020. The June 30, 2020, valuation is based on a measured date of July 1, 2019, with a measurement period of July 1, 2018, to July 1, 2019.

At June 30, 2021, the Department had total participants in the health plan of 490, consisting of 327 active participants and 163 retirees. At June 30, 2020, the Department had total participants in the health plan of 481, consisting of 327 active participants and 154 retirees.

*Discount Rate*—The discount rate used to measure the total IRSHIP OPEB liability was 2.21% and 3.51% for June 30, 2021 and 2020, respectively. The discount rate was determined using the Bond Buyer GO 20-Bond Municipal Bond Index.

See Independent Auditors' Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(10) OKLAHOMA STATE EMPLOYEES DEFERRED COMPENSATION PLAN AND  
DEFERRED SAVINGS INCENTIVE PLAN**

**Deferred Compensation Plan**

The State offers its employees a Deferred Compensation Plan (the “State DC Plan”) as authorized by Section 457 of the Internal Revenue Code (IRC), as amended by the Tax Reform Act of 1986, and in accordance with the provisions of Sections 1701 through 1706 of Title 74 of the Oklahoma Statutes.

The supervisory authority for the management and operation of the State DC Plan is the Board of Trustees of the Oklahoma Public Employees Retirement System (the “Board”).

The State DC Plan is available to all State employees, as well as any elected officials receiving a salary from the State. Participants may direct the investment of their contributions in available investment options offered by the State DC Plan. The minimum contribution amount is the equivalent of \$25 per month, and participants are immediately 100% vested in their respective accounts. All interest, dividends, and investment fees are allocated to participants’ accounts.

Participants may defer until future years up to the lesser of 100% of their compensation as defined by plan documents or the maximum amount allowed each year as determined by the Internal Revenue Service.

The State DC Plan offers a catch-up program to participants, which allows them to defer annually for the 3 years prior to their year of retirement up to twice that plan year’s deferral limit. The amount of additional contributions in excess of the normal maximum contributions to the State DC Plan are also limited to contributions for years in which the participant was eligible but did not participate in the State DC Plan or the difference between contributions made and the maximum allowable level. To be eligible for the catch-up program, the participant must be within 3 years of retirement with no reduced benefits.

Participants age 50 or older may make additional contributions of up to \$5,000 annually subject to certain limits.

Deferred compensation benefits are paid to participants or beneficiaries upon termination, retirement, death, or unforeseeable emergency. Such benefits are based on a participant’s account balance and are disbursed in a lump sum or periodic payments at the option of the participant or beneficiaries in accordance with the State DC Plan’s provisions.

See Independent Auditors’ Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(10) OKLAHOMA STATE EMPLOYEES DEFERRED COMPENSATION PLAN AND DEFERRED SAVINGS INCENTIVE PLAN, CONTINUED**

**Deferred Compensation Plan, Continued**

Effective January 1, 1998, the Board established a trust and a trust fund covering the State DC Plan's assets, pursuant to federal legislation enacted in 1996, requiring public employers to establish such trusts for plans meeting the requirements of Section 457 of the IRC no later than January 1, 1999. Under the terms of the trust, the corpus or income of the trust fund may be used only for the exclusive benefit of the State DC Plan's participants and their beneficiaries. Prior to the establishment of the trust, the State DC Plan's assets were subject to the claims of general creditors of the State. The Board acts as trustee of the trust. The participants' accounts are invested in accordance with the investment elections of the participants. The Board is accountable for all deferred compensation received, but has no duty to require any compensation to be deferred or to determine that the amounts received comply with the State DC Plan or to determine that the trust fund is adequate to provide the benefits payable pursuant to the State DC Plan.

Further information may be obtained from the Oklahoma State Employees State DC Plan's audited financial statements for the years ended June 30, 2021 and 2020. The Department believes that it has no liabilities in respect to the State DC Plan.

Effective January 1, 1998, the State established the Oklahoma State Employees Deferred Savings Incentive Plan (the "Savings Incentive Plan") as a money purchase pension plan pursuant to IRC Section 401(a). The Savings Incentive Plan and its related trust are intended to meet the requirements of IRC Sections 401(a) and 501(a).

Any qualified participant who is a State employee who is an active participant in the State DC Plan is eligible for a contribution of the amount determined by the State Legislature, currently the equivalent of \$25 per month. Participation in the Savings Incentive Plan is automatic in the month of participation in the State DC Plan and is not voluntary.

Upon cessation of contributions to the State DC Plan, termination of employment with the State, retirement, or death, a participant will no longer be eligible for contributions from the State into the Savings Incentive Plan. Participants are at all times 100% vested in their Savings Incentive Plan account. Participant contributions are not required or permitted. Qualified participants may make rollover contributions to the Savings Incentive Plan, provided such rollover contributions meet applicable requirements of the IRC. Participants may direct the investment of the contributions in available investment options offered by the Savings Incentive Plan. All interest, dividends, and investment fees are allocated to the participants' accounts.

Savings Incentive Plan benefits are paid to participants or beneficiaries upon termination, retirement, or death. Such benefits are based on a participant's account balance and are disbursed in a lump sum or periodic payments or may be rolled over to a qualified plan at the option of the participant or beneficiaries.

See Independent Auditors' Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(11) FEDERAL AWARDS**

**Sport Fish Restoration Program**

The Sport Fish Restoration Program, more commonly known as “Dingell-Johnson” after its congressional sponsors, created a federal program for fisheries improvement throughout the United States. Applying the “user pay” concept to fish restoration, this program has employed an excise tax. This tax is added by manufacturers onto the purchase price of angling equipment and helps raise the revenue necessary to fund specific restoration projects by state fish and wildlife agencies. Each state’s share is 60% on its licensed sport fishermen and 40% on its land and water area. No state may receive more than 5% or less than 1% of each year’s total apportionment. Federal funding from the program pays for up to 75% of project costs, with the Department matching approximately 25%.

**Wildlife Restoration Act**

The Wildlife Restoration Act, better known as the Pittman-Robertson Act, created a 10% tax on ammunition and firearms used for sport hunting. Federal funding from the Act pays up to 75% of project costs, with the Department matching approximately 25%.

As of June 30, 2021 and 2020, the Department had accrued approximately \$2,421,000 and \$2,372,000, respectively, of accounts receivable from the federal government for the federal government’s share of program expenditures.

**(12) COMMITMENTS AND CONTINGENCIES**

**Federal and State Grants and Contracts**

The Department conducts certain programs pursuant to grants and contracts funded with federal monies, which are subject to audit by various federal and state agencies. Costs questioned as a result of audits, if any, may result in refunds to these governmental agencies.

During the year ended June 30, 2021, the Department’s Sport Fish Restoration Program and Wildlife Restoration Act grants were audited by the U.S. Department of Interior Office of Inspector General for the period July 1, 2017, through June 30, 2019. The Department has received preliminary comments; however, a final report of findings or questioned costs has not yet been received.

See Independent Auditors’ Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(12) COMMITMENTS AND CONTINGENCIES, CONTINUED**

**Insurance**

Certain buildings and other properties of the Department are insured through the risk management program of the State. To the extent destruction or damage to the properties should occur, the Department expects to fund replacement costs from State sources.

The Department participates in the Oklahoma Risk Management Division's (a division of the Department of Central Services) insurance pool, which covers all governmental tort claims against the Department and virtually all other state agencies and authorities. Workers' compensation claims arising from incidents occurring during the year are fully insured through the State Insurance Fund.

These areas of insurance coverage include stop-loss provisions that limit the Department's exposure.

**Legal**

The Department, in the normal course of business, is occasionally involved in litigation. While there is litigation outstanding at June 30, 2021, management does not believe that the outcome of such litigation will have a material effect on the net position of the Department or on the results of its operations.

**COVID-19**

The novel coronavirus ("COVID-19"), which was declared a global health emergency in January 2020 and a pandemic in March 2020, has caused significant changes in political and economic conditions around the world, including disruptions and volatility in the global capital markets. In response, the State of Oklahoma and local municipalities have taken various preventative or protective actions, such as imposing restrictions on business operations and advising or requiring individuals to limit or forgo their time outside of their homes. The Department's management has considered the economic implications of the COVID-19 pandemic in making critical and significant accounting estimates included in the June 30, 2021 and 2020, financial statements.

The extent to which the COVID-19 pandemic may impact the Department will depend on future developments which are uncertain, such as the duration of the outbreak, additional governmental mandates issued to mitigate the spread of the disease, business closures, economic disruptions, and the effectiveness of actions taken to contain and treat the virus. Accordingly, the COVID-19 pandemic may have a negative impact on the Department's future operations, the size and duration of which is difficult to predict. The Department's management will continue to actively monitor the situation and may take further actions altering operations that the Department's management determines are in the best interests of its employees and stakeholders, or as required by federal, state, or local authorities.

See Independent Auditors' Report.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO FINANCIAL STATEMENTS, CONTINUED**

---

**(12) COMMITMENTS AND CONTINGENCIES, CONTINUED**

**Land Leases**

The Department leases various tracts of land from owners for the purposes of establishing wildlife management areas and to provide the public with additional hunting, fishing, and recreational opportunities. Land lease expense for the years ended June 30, 2021 and 2020, was approximately \$1,185,000 and \$1,129,000, respectively. The Department presently has land lease commitments for the following periods and amounts:

<u>Year Ending June 30,</u>	<u>Amount</u>
2022	\$ 1,217,289
2023	1,254,424
2024	54,160
2025	54,160
2026	54,160
2027–2031	303,687
2032–2036	341,622
2037–2041	384,273
2042–2046	13,290

Certain of the land lease agreements contain options to renew the lease.

See Independent Auditors' Report.

\*Not a cooperative agreement or grant, but considered federal funds.

See Independent Auditors' Report.

See accompanying notes to schedule of expenditures of federal awards.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

**Year Ended June 30, 2021**

---

**(1) BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the “Schedule”) includes the federal grant activity of the Department under programs of the federal government for the year ended June 30, 2021. The information in the Schedule is presented in accordance with the requirements of the Uniform Guidance. Because the Schedule presents only a selected portion of the operations of the Department, it is not intended to, and does not, present the financial position, changes in net position/fund balances, or cash flows, if applicable, of the Department.

**(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts (if any) shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

**(3) INDIRECT COST RATE**

The Department has an approved indirect cost rate of 23.48%, which was used during the year ended June 30, 2021, to charge federal awards.

**(4) RECONCILIATION OF EXPENDITURES**

The following is a reconciliation of the expenditures per the schedule of expenditures of federal awards to the statement of revenues, expenditures, and changes in fund balances—governmental funds and the statement of activities:

Total expenditures per the schedule of expenditures of federal awards; and total federal grant revenue per the statement of revenues, expenditures, and changes in fund balances—governmental funds; and total federal operating grants revenue per the statement of activities	<u>\$ 23,998,912</u>
---	----------------------

See Independent Auditors’ Report.

**INDEPENDENT AUDITORS' REPORT ON  
INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Oklahoma Wildlife Conservation Commission  
Oklahoma Department of Wildlife Conservation

We have audited, in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Oklahoma Department of Wildlife Conservation (the "Department"), a component unit of the State of Oklahoma, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements, and have issued our report thereon dated November 1, 2021. Our report includes an explanatory paragraph to emphasize the fact that the financial statements include only that portion of the State of Oklahoma that is attributable to transactions of the Department. Our report includes an explanatory paragraph disclaiming an opinion on required supplementary information.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Department's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Department's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**INDEPENDENT AUDITORS' REPORT ON  
INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS, CONTINUED**

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Department's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Department's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Department's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Oklahoma Wildlife Conservation Commission  
Oklahoma Department of Wildlife Conservation

**Report on Compliance for Each Major Federal Program**

We have audited the Oklahoma Department of Wildlife Conservation's (the "Department"), a component unit of the State of Oklahoma, compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Department's major federal programs for the year ended June 30, 2021. The Department's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

**Auditors' Responsibility**

Our responsibility is to express an opinion on compliance for each of the Department's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Department's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Department's compliance.

**Opinion on Each Major Federal Program**

In our opinion, the Department complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

(Continued)

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR  
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER  
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE, CONTINUED**

**Report on Internal Control Over Compliance**

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Department's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS**

*Year Ended June 30, 2021*

---

**SECTION I—SUMMARY OF AUDITORS’ RESULTS**

**Financial Statements**

Type of auditors’ report issued on whether the financial statements audited were prepared in accordance with accounting principles generally accepted in the United States:

**Unmodified**

Internal control over financial reporting:

Material weakness(es) identified?

Yes  No

Significant deficiency(ies) identified?

Yes  None Reported

Noncompliance material to financial statements noted?

Yes  No

**Federal Awards**

Internal control over major programs:

Material weakness(es) identified?

Yes  No

Significant deficiency(ies) identified?

Yes  None Reported

Type of auditors’ report issued on compliance for the major federal programs:

**Unmodified**

Any audit findings disclosed that are required to be reported in accordance with Section 2 CFR 200.516(a) of the Uniform Guidance?

Yes  No

Identification of major federal programs:

<b><u>Federal CFDA Number</u></b>	<b><u>Name of Federal Program or Cluster</u></b>
15.605, 15.611, and 15.626	Fish and Wildlife Cluster
10.093	Voluntary Public Access and Habitat Incentive

Dollar threshold used to distinguish between type A and type B programs: **\$750,000**

Auditee qualified as low-risk auditee?

Yes  No

**OKLAHOMA DEPARTMENT OF WILDLIFE CONSERVATION**
