

Sales and Revenue Counts

Sales Between 7/1/2022 and 6/30/2023

Counties: All Counties

This report displays net license/item revenue and item counts for cost and no-cost items for the selected report period and filter criteria.

The payment date is used to determine if the revenue item is covered in the report. For Common Accounting Ledger Items with no payment date the order date is used for sales and the void date is used for voids to determine if the revenue is to be included in the report.

This report excludes all agent and contract fees including ODWC's agent fees.

For revenue and items belonging to orders that were not fully paid for prior to the report period end date and for items belonging to orders that required multiple payments to complete the order and where not all the payments that completed the order were made between the report start and end dates the revenue is marked as partial revenue and the item/license count is zeroed out.

Note that there are quite a few ODWC Agents that don't have a county specified. Their county ID is currently set to -1 (Out of State). You may want to always include Out of State

Type	Description	Number Sold	Revenue	Partial Revenue Item For Report Period
1	Administrative Fine	1,326	\$132,600.00	<input type="checkbox"/>
