

Oklahoma Land Access Program (OLAP)

The Oklahoma Land Access Program (OLAP) provides financial incentives to landowners who allow public access for hunting, fishing, stream access, and wildlife viewing opportunities on private lands. Properties are not owned by ODWC. A Land Access Permit is required on all OLAP properties. A hunting and/or fishing license is also required unless a person is exempt.

Types of OLAP Properties

Limited Access:

Restricts the number of hunters that may access a property at a given time, which provides a better experience to hunters and property owners in high-traffic areas. Limited Access areas are subject to the same regulations as Walk-in Hunting Area Archery & Shotgun.

Additional Information:

- Limited Access is now a daily check-in (no more drawings) on a first-come, first-serve basis.
- Check-in for a specific day opens 2 days before that day at 8:00 am.
- The number of available spots will shift according to the hunting season. For example, a tract might allow more hunters on the tract during dove season in September versus duck season in December.

** Online check-in IS required. **

Walk-in Hunting Area Archery & Shotgun:

Open to all hunting seasons besides elk season, hunters may access these properties from September 1st - May 16th. Hunters may pursue game with archery equipment or shotgun (not shot size larger than T shot); centerfire rifles or pistols (arrow rifles are considered rifles), rimfire rifles or pistols, and muzzleloaders are prohibited.

** Online check-in is NOT required **

Walk-in Fishing Area:

Catch and release fishing only. No more than three rods per person and three hooks per line. Seasonal fishing areas are available on some currently enrolled Walk-in Hunting Areas and open up to public fishing after the hunting season from May 17th – August 31st. Annual Fishing Areas are open year-round.

** Online check-in is NOT required. **

Walk-in Stream Area:

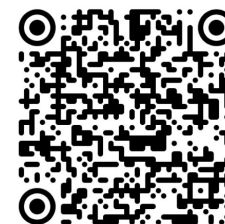

Stream access areas provide public access to a stream corridor for fishing, swimming, and/or launching/retrieving non-motorized boats. Sportspersons must remain in the designated stream corridor. These areas are open year-round.

** Online check-in is NOT required. **
