Dear Potential Lessee,

Enclosed are lease documents for agricultural leases currently open for bid on the Eufaula Wildlife Management Area (WMA) in McIntosh and Okmulgee Counties.

I urge you to review the lease documents and associated provisions carefully. I strongly suggest previewing all fields, locations and accesses prior to bidding. Some of the fields have not been manipulated recently and may require preparations before farming can be accomplished.

If you have any questions, please do not hesitate to call.

Thanks,

J.D. Ridge
