

An aerial satellite image showing a large, irregularly shaped field. The field is characterized by a dense pattern of thin, parallel lines, likely representing rows of crops or a specific agricultural layout. The color of the field is a mix of light green and brownish-yellow, suggesting varying vegetation or soil conditions. The field is surrounded by a darker, more textured area, possibly a forest or a different type of land use. A yellow label 'Pick Field' is overlaid on the image, pointing to the field. A thin yellow line runs horizontally across the top of the image, and a thin green line runs vertically along the left edge.

Pick Field
